Using Fleet Data to Control Fuel, Labor and Maintenance Costs

[Article originally appeared in https://constructionexec.com]

By Robert Hall Jr

GPS tracking systems and telematics technology help collect fleet data, giving managers a clearer picture of daily operations.

Construction companies rely on vehicles and heavy equipment to keep projects moving. However, fuel expenses, labor inefficiencies and unexpected equipment repairs can quickly increase operating costs. Even minor problems, such as excessive idling or poorly coordinated deliveries, can affect profitability when they occur across multiple jobsites.

Many contractors already collect valuable information about their fleets through GPS tracking, telematics and maintenance records. The challenge is turning that information into useful decisions. By examining how vehicles and equipment are used, construction leaders can identify unnecessary expenses, improve resource allocation and reduce disruptions that affect project schedules.

Understanding Fleet Data in Construction

Fleet data includes information about vehicle locations, engine hours, fuel consumption, equipment activity and maintenance needs. GPS tracking systems and telematics technology help collect this information, giving managers a clearer picture of daily operations.

For construction companies, these insights are particularly useful because vehicles and equipment often move between jobsites. A truck might spend part of the day transporting materials, while an excavator remains at another location waiting for its next assignment.

Without reliable information, managers may struggle to determine whether equipment is being used efficiently. Fleet management systems can help identify patterns that might otherwise go unnoticed.

However, collecting information is only the first step. Construction leaders must establish performance benchmarks, review the results and make operational adjustments based on what the data reveals.

California High-Speed Rail Celebrates Completion of Largest Structure in the Central Valley, Surpasses 20,000 Jobs Created

[Article originally appeared in https://hsr.ca.gov]

WHAT YOU NEED TO KNOW:

The Hanford Viaduct, the largest high-speed rail structure, is now complete in Kings County. More than a mile long, it will connect to the future Kings-Tulare Station. Five additional structures are complete in Fresno, Kings and Tulare counties, and the project has now created more than 20,000 jobs, most filled by Central Valley residents.

The California High-Speed Rail Authority (Authority), alongside local and state leaders, today celebrated the completion of the Hanford Viaduct, the largest high-speed rail structure across the first 119 miles of construction, with a ribbon cutting ceremony in Kings County.

Located east of the City of Hanford and State Route 43, between Grangeville Boulevard and Hanford Armona Road, the elevated structure constructed by Dragados-Flatiron Joint Venture is part of the Kings/Tulare Station that will take trains over the San Joaquin Valley Railroad and State Route 198, provide multimodal connections and foster economic development within the region.

The California high-speed rail program has now surpassed a major workforce milestone, generating 21,063 construction jobs to date across the project. These jobs reflect positions created under the program's Community Benefits Agreement and underscore the project's ongoing role in supporting employment opportunities and workforce development throughout California.

Other Completed Structures:

The Authority also completed five other structures in Fresno, Kings and Tulare counties:

Conejo Viaduct, Fresno County

A combination of viaduct and pergola structure, it is located between Peach and Willow avenues in Fresno County. The structure spans more than 2,200 feet and takes high-speed trains over Conejo Avenue and the BNSF freight tracks. The structure is comprised of 248 pre-cast concrete girders, 18 pre-cast tub girders, more than 4,000,000 pounds of steel, and 34,000 cubic yards of concrete.

"Completion of the Hanford Viaduct shows the high-speed rail program is moving from major civil construction toward track installation, trainsets, and the development of our Central Valley stations. The progress has also created more than 20,000 good-paying jobs, delivering lasting economic benefits across the Central Valley and California. Work continues across the valley, and I look forward to seeing the nation's first high-speed rail system move from construction to operations."

– Joe Stephenshaw, Authority Interim CEO

"The completion of the Hanford Viaduct marks a critical step forward in bringing high-speed rail to California. Under Governor Newsom's leadership, the largest infrastructure in America, is generating thousands of construction jobs, creating small business opportunities and delivering lasting economic benefits to the region."

– Toks Omishakin, California Transportation Secretary

"California high-speed rail and projects like the Hanford Viaduct have helped create thousands of good paying jobs for individuals across the Central Valley. Now with full environmental clearance, stations, and track laying in the near future, the opportunities continue to grow and will put local residents and those eager to join the construction trades to work."

– Chuck Riojas of the Fresno, Madera, Kings, Tulare Building Trades Council

Cole Slough Bridge, Fresno County

Located south of Davis Avenue and east of SR 43 in Fresno County, the structure spans more than 317 feet, more than 40 feet wide and will take high-speed trains over the Cole Slough natural stream. It is comprised of six pre-cast California Wide Flange girders, 1,251,632 pounds of steel, and 3,060 cubic yards of concrete.

Dutch John Cut Bridge, Kings County

Located east of the Fresno and Kings County lines, the bridge spans 669 feet and is more than 40 feet wide. It is comprised of 20 pre-cast concrete girders, 2,623,520 pounds of steel, and 4,695 cubic yards of concrete. In the future, the structure will allow high-speed trains to cross over the Dutch John Cut waterway.

Houston Avenue Grade Separation, Kings County

Located south of the Hanford Viaduct and east of SR 43, the structure will take traffic over the future high-speed rail corridor. The structure, which spans 450 feet and is more than 40 feet wide, is now open to traffic.

Deer Creek Viaduct, Tulare County

Located in Tulare County, the structure spans more than 3,000 feet and more than 43 feet wide. The structure will take trains over Deer Creek. It is comprised of more than 264 pre-cast concrete girders, 14,703,238 pounds of steel, and 13,558 cubic yards of concrete.

Hiring Leaders Who Can Say No to the Wrong Project

Photo by Daniel McCullough on Unsplash

[Article originally appeared in https://raymondsearchgroup.com]

Growth is a major goal for most construction companies. A strong backlog can create stability but does not always mean better business.

Some projects look valuable at first but eventually create thin margins, overloaded teams, difficult client relationships and unnecessary risk. A company may win the work and increase its revenue while still weakening its overall performance. That is why one of the most valuable qualities in a construction leader is the ability to say no.

Strong leaders do not pursue every available opportunity. They know how to study the project, ask difficult questions and determine whether the work truly fits the company. They also have the confidence to walk away when the risks outweigh the potential reward. Hiring leaders with this type of judgment can help construction companies protect their people, reputation and long-term growth.

Winning Work Is Not the Same as Winning the Right Work

It can be difficult to turn down a major project, especially when competition is strong or the company is trying to grow. A large opportunity may offer impressive revenue, a recognizable client or entry into a new market. Leaders may feel pressure to pursue it because they do not want competitors to gain an advantage. They may also worry that turning down work will leave parts of the team without enough to do.

However, the size of a project does not tell the entire story. A project may fall outside the company's experience. The schedule may be unrealistic. The contract may place too much risk on the contractor. The location may make staffing difficult, or the company may not have the right project leadership available.

A project can also appear profitable during the estimating process but become much less attractive once labor availability, material costs, subcontractor capacity and schedule demands are considered. The best leaders understand that a full backlog is only valuable when the work can be completed safely, successfully and profitably.

The Cost of Taking the Wrong Project

Accepting poorly aligned work can affect much more than one project. When a company takes on more work than it can properly support, employees may be moved between jobs, asked to work unreasonable hours or placed into responsibilities before they are ready. Project managers, superintendents, estimators and field teams may become stretched across too many priorities.

Over time, this can lead to mistakes, burnout and turnover. The wrong project can also damage client relationships. If the company cannot meet expectations, communicate clearly or maintain quality, the client may lose confidence. That damage can follow the company into future pursuits, especially within relationship-driven construction markets.

Financial risks are also important. A project with a low margin leaves little room for unexpected problems. Delays, labor shortages, change-order disputes or material increases can quickly turn a promising opportunity into a loss. Leaders must be able to look beyond revenue and consider the full effect the project could have on the business.

Strong Leaders Understand the Company's Strengths

A leader can only identify the wrong project when they clearly understand the right one. Construction companies should know which project types, sizes, delivery methods, clients and geographic markets fit their capabilities. They should also understand where they have the strongest teams, subcontractor relationships and operational experience.

CALIFORNIA SUB-BID REQUEST ADS

Steve P. Rados, Inc.
CONSTRUCTION SINCE 1922

Our firm, An Equal Opportunity Employer, is requesting quotations from all qualified Certified DBE sub-contractors and/or material suppliers to submit bids on the following project:

EAST BAY MUNICIPAL UTILITY DISTRICT
Water Treatment Plant Effluent Meters Improvements And Circle Regulator Replacement
(Spec No. 2182)

Business Enterprise Goal & Fair Share DBE Participation

Bid Date: December 2, 2026 @ 2:00 P.M.

Email: bid@rados.com

Sub-Trades Suppliers Needed For The Following Work (but not limited to): WATER & SEWER LINE, PUMP STATION, TREATMENT PLANT, STEEL SUPPLIER, PIPE SUPPLIER, CONSTRUCTION AREA SIGNS, PLANE ASPHALT CONCRETE, CLEARING & GRUBBING, DITCHES EXCAVATION, CONCRETE PUMPING, ASPHALT CONCRETE PAVING, CONCRETE PAVEMENT, SOIL STABILIZATION, CONCRETE STRUCTURE, MINOR CONCRETE STRUCTURE, MASONRY WALL, JOINT SEAL, REINFORCING STEEL, PAINTING/ COATINGS, WELDING CONTRACTOR, CONCRETE CURB/GUTTER/SIDEWALK/RAMP-MISC, MISC. IRON & STEEL FRAME, COVER & GRATE, METAL FABRICATIONS, SAW CUTTING, FENCES AND GATES, PAVEMENT MARKING & STRIPING, MATERIALS TESTING SERVICES, LAND SURVEYOR, SWPPP PLANNING, SUPER 10 DUMP TRUCK, WATER TRUCK, STREET SWEEPING TRUCK, SHEET METAL, HEATING, VENTILATING & AIR CONDITIONING, CORING, DEMOLITION, SHORING, CONSTRUCTION, DEWATERING, CATHODIC PROTECTION, SECURITY, PHOTOS/VIDEO RECORDING, POTHOLING, VAULT HATCHES, VALVES, PUMPS

NAICS:
212321, 221310, 237110, 237310, 238110, 238120, 238190, 238210, 238220, 238320, 238390, 238910, 238990, 423510, 423830, 423990, 484220, 488490, 532412, 541330, 541370, 541990, 561730, 562112

S.P. Rados, Inc. is a Signatory Union Contractor. Subcontractors will be required to abide by the terms and conditions of the AGC Standard Long Form Subcontract incorporating prime contract terms and conditions, including payment provisions & insurance requirements. S.P. Rados, Inc.'s listing of a subcontractor is not to be construed as an acceptance of all the subcontractor's conditions or exceptions included with the Subcontractor's price quote. Subcontractors will be required to provide a payment & performance bond from an approved surety company for 100% of the subcontracted work. S.P. Rados, Inc. will pay bond premium up to 1.5% (optional).

Please be advised, Contractors and Subcontractors must register with the D.I.R. (Department of Industrial Relations) in order to bid on public works projects. Registration with the D.I.R. costs $300 and covers the fiscal year (July 1 to June 30th). To verify status of your D.I.R. number, please visit: http://.dir.ca.gov/Public-Works/Contractors.html.

Assistance is available in obtaining bonds, lines of credit and/or insurance. We will consider dividing total requirements when economically feasible into smaller tasks or quantities to permit participation by DBE in the competitive process. We will assist in obtaining necessary equipment, supplies, materials & related assistance or services. S.P. Rados, Inc. requires that Subcontractors and Suppliers price quotes be provided at a reasonable time prior to the bid deadline to enable a complete evaluation. If you are interested in participating in this project, please contact Lucy Gonzalez at Tel: (714) 835-4612 Fax: (714) 835-2186 or bid@rados.com.

Plans and Specifications and copies of the proposal are available free of charge https://stevepradosinc.sharefile.com/d-s3fa7c789602b49bdb0e3c53dbf3335e0 also available for viewing at 2002 E. McFadden Ave., Ste. 200, Santa Ana, CA 92705 call our office to schedule a review of the plans and specifications (714) 835-4612.

Ames Construction, Inc. is seeking certified and qualified SBE/VSBE subcontractors and suppliers to meet the combined 17% goal for the following:

PROJECT: Pier B on Dock Rail Support Facility North Yard Utilities & Pier B Street Widening Project ID No. HD-S3180

OWNER: Port of Long Beach

BID DATE/TIME: December 15, 2026 @ 2:00 PM

PLEASE SUBMIT BID TO:
Ames Construction, Inc.
391 N. Main St., Ste 302 • Corona, CA 92880
Phone: (951) 356-1275 • Fax: (951) 549-9003

SBE/VSBE Subs/Suppliers required include but are not limited to: Demolition, removal, and disposal of existing improvements including, but not limited to, railroad tracks, railroad ties, asphalt concrete (AC) pavement, utilities, reinforced concrete structures, poles, signs, fencing, and miscellaneous obstructions. Demo of abandoned utilities. Protection of existing abandoned oil wells and Utilities Construction of new roads, traffic control, landscaping with irrigation systems. Excavation, segregation, onsite placement of non-contaminated soil, and offsite disposal of contaminated material. Earthwork and grading of the Site. Concurrent removal, treatment, and offsite disposal of contaminated groundwater. SWPPP, storm drainage system, sewer, water, micro tunneling, electrical, and lighting systems, sewer lift station, including SCADA system, retaining wall, fencing, and gates. Ames Construction, Inc. will work with subcontractors and suppliers to break down items into feasible economical packages and to establish delivery/construction schedules to allow for maximum CBE participation.

Ames will require bidder to provide performance and payment bonds for the full amount of the Subcontract values. Costs of the bonds are to be provided as a separate line item. Please call to discuss how Ames Construction can assist you in your bonding, credit and/or insurance needs. Also, let us know if you need assistance in obtaining necessary equipment, supplies, materials or related assistance or services for this project. Please contact us for more information. Ames' Subcontract terms and conditions will apply to any contracts resulting from this request. The Subcontractor, by submission of its bid, agrees to the "Terms and Conditions" including all Exhibits and Attachments of Ames Subcontract Agreement. Ames reserves the right to accept or reject any or all quotations. For questions about plans, specifications and other contract requirements please contact our office. Contact info provided below. Bids submitted to Ames in response to this RFQ shall remain open and valid until the contract is executed. Ames Construction, Inc. is an Equal Opportunity Employer.

Our contact for this project is Matthew Adams at (951) 356-1275 X 1292 or **matthewadams@amesco.com**
Please fax quotes to (951) 549-9003 or send by email to **CABID@Amesco.com**.

Sub-Bids Requested from qualified MBE/WBE/SBE/DVBE Subcontractors and Suppliers for:

MAIN WASTEWATER TREATMENT PLANT SECONDARY REACTORS REHABILITATION, PHASE 2, SPECIFICATION SD-462

Owner: East Bay Municipal Utility District

Location: Oakland, CA

Revised Bid Date: December 2, 2026 @ 2:00 P.M.

J.F. SHEA Construction

667 Brea Canyon Road, Suite 30 • Walnut, CA 91789
Phone: (909) 595-4397, Fax: (909) 444-4268
Contact: Lori Olivas, lori.olivas@jfshea.com

J.F. Shea Construction, Inc. is soliciting your participation in the preparation of this bid. We are particularly interested in bids from subcontractors/suppliers for the following work items: **Demolition, Saw-Cutting, Concrete Coring, Hazardous Materials Handling, AC Paving, Ready-Mix Concrete, Reinforcing Steel, Structural Steel, Miscellaneous Metals, Waterproofing, Access Hatches & Vault Hatches, Painting & Coatings, Equipment, and Electrical**

Plans and Specifications: A free download is available at: **https://construction-bids.ebmud.com/CurrentorFutureBid.aspx?BidMode=Current**. Plans may also be viewed at our NorCal Office at 4309 Hacienda Drive, Suite 170, Pleasanton, CA 94588. J.F. Shea Construction, Inc. is an equal opportunity employer and intends to negotiate in good faith with interested MBE/WBE/SBE/DVBE firms and intends to utilize the lowest responsive bidder. J.F. Shea expects potential subcontractors to be bondable. J.F. Shea will pay for up to 1% for subcontractor bond costs. Subcontractors and Suppliers are expected to bid per plans and specifications, including requirements for warranties. Standard manufacturer's warranties, if not in conformance with owner's specifications, will not be accepted.

Sub-Bids Requested from qualified DBE Subcontractors and Suppliers for:

PUMP STATION 2 IMPROVEMENTS AND MODERNIZATION
K-27-2502-DBB-3-C

Owner: The City of San Diego

Location: San Diego, CA

Bid Date: December 10, 2026 @ 2:00 P.M.

Contact: Lori Olivas, lori.olivas@jfshea.com

J.F. Shea Construction, Inc. is soliciting your participation in the preparation of this bid. We are particularly interested in bids from subcontractors/suppliers for the following work items: **Demolition, Abatement, Ready-Mix Concrete, Reinforcing Steel, Miscellaneous Metals, Steel Deck Roofing, Sheet Metal, Joint Sealants, Gypsum Board Assemblies, Painting & Coatings, HVAC, Equipment, and Electrical & Instrumentation**

Plans and Specifications: Bid Documents may be obtained free of charge from PlanetBids at: **https://vendors.planetbids.com/portal/17950/bo/bo-detail/148033#bidinformation** . Plans may also be viewed at our Walnut Office. J.F. Shea Construction, Inc. is an equal opportunity employer and intends to negotiate in good faith with interested DBE firms and intends to utilize the lowest responsive bidder. J.F. Shea expects potential subcontractors to be bondable. J.F. Shea will pay for up to 1% for subcontractor bond costs. Subcontractors and Suppliers are expected to bid per plans and specifications, including requirements for warranties. Standard manufacturer's warranties, if not in conformance with owner's specifications, will not be accepted.

MANSON

MANSON CONSTRUCTION CO.
REQUESTS SUB-BIDS AND SUPPLIER QUOTES
from qualified Disadvantaged Business Enterprises (DBEs)
and Small Business Enterprises (SBEs) for the following project:
WATER EMERGENCY TRANSPORTATION AUTHORITY (WETA)
VALLEJO FERRY TERMINAL RECONFIGURATION PROJECT
RFP 25-053

BID DUE DATE NOVEMBER 23, 2026 AT 4:00PM
SUB-BIDS AND SUPPLIER QUOTES ARE DUE: November 20, 2026 AT 4:00PM

Requirements: All submitted quotes must include valid Small Business Enterprise (SBE) certifications.

Project Description: The Vallejo Ferry Terminal Reconfiguration Project includes in-water construction and demolition, new and refurbished structures, extension and relocation of utilities, and acceptance and final placement of the WETA Standard Float.

Manson Construction intends to seriously negotiate with qualified DBEs and SBEs firms for project participation in all applicable disciplines including:

Demolition and Disposal; Furnish Steel Piling; Furnish Composite Piling; Furnish and Installation of Reinforcing Steel; Ready-mix Concrete Supply; Cast-in-Place Concrete Pumping & Placement; Fabricated Metals (Miscellaneous Metals) Supply; Furnish Aluminum Walkways; Furnish Rubber Fenders; Diving work as directed; Furnish and Install Mechanical/Plumbing Utilities; Furnish and Install Electrical, Communications, Security Systems Utilities and Equipment; Environmental Monitoring; Materials Testing; Trucking

Performance and payment bonds are required. Assistance is available with project scoping and obtaining bonding, insurance, or other means of support. Plans and Specifications may be viewed at our office or are available for download on the WETA website, https://weta.bonfirehub.com/portal/?tab=openOpportunities. SWINERTON

SWINERTON BUILDERS
INVITATION TO BID
Foothill-De Anza College – Creative Arts Building
Bids are due December 4th, 2026

Swinerton Builders is Seeking Qualified Subcontractors and Suppliers to provide design-build proposals for the Foothill-De Anza College Creative Arts Building project located at 21250 Stevens Creek Boulevard, Cupertino, CA 95014 based on the 50% Design Development documents. This will be awarded on a "Best Value" basis. Pricing proposals from Design-Build partners will be obtained at the 50% Design Development milestone. The selected partner will be onboarded at the 50% Design Development milestone and will assume design assist responsibilities through the completion of the Design Development phase. During Construction Document phase through DSA Submission and Approval, the selected partner will assume all Design Build Engineer of Record responsibilities for their systems during the completion of the project. The project includes a 24,000 SF two story building for the Creative Arts Department at Foothill De Anza College. It will facilitate photography, wood, and ceramic arts. Hydronic piping and associated site work is included.

Scope of work includes: fire suppression, plumbing, HVAC, and electrical/low voltage.

- Project Stabilization Agreement
- Prevailing Wage project
- OCIP
- Bids are to be good for 90 days from bid date.

Bid Schedule Information:

- Invite to Bid – November 6, 2026
- Non-Mandatory Job Review Conference Call – Week of 11/9/26. Reach out to **austin.defarcy@swinerton.com** for details.
- RFI Deadline – November 27, 2026
- Swinerton Prequalification Deadline – November 27, 2026
- Final Addendum – December 1, 2026
- Bids Due – December 4, 2026

Interested Subcontractors should contact: **EstimatingSD@Swinerton.com** or 949-622-7000, for access to bid documents.

Subcontractors are also encouraged to begin the Swinerton Prequalification process at:
http://www.swinerton.com/subcontractors/subcontractor-prequal

At Swinerton's discretion, Swinerton may require a Payment and Performance bond and/or a letter of bondability from a qualified and accepted Treasury listed Surety within 48 hours of demand. P**lease provide bond rate together with single project bond $ limit for scope of work to be performed in your proposal**.

List of certified companies: **https://fiscal.treasury.gov/files/surety-bonds/list-certified- companies.pdf**.

Swinerton is an Equal Employment Opportunity, Minority, Women, Disability, and Veteran Employer.

This is Part of a Good Faith Outreach. Your response is greatly appreciated.

WESTERN WATER (WW), is seeking quotes from qualified subcontractors and suppliers, including but not limited to certified Disadvantaged Business Enterprise (DBE) firms, for the construction of:

East Bay Municipal Utility District -
Main Wastewater Treatment Plant Secondary Reactors Rehabilitation, Phase 2
Engineer's Estimate: $18,500,000 - $19,500,000
Bid Date & Time: December 2, 2026 at 2:00 P.M.
Project Location: Oakland, CA

WW has identified the following potential contracting opportunities for qualified subcontractors and suppliers on this project:

This project will require multiple trades and types of work: concrete rehabilitation/structural repair, protective coatings and linings, process mechanical/steel and ductile iron pipe fabrication and installation (including pipe supports), valves and piping appurtenances (supply), electrical, instrumentation and controls, temporary bypass pumping, mechanical equipment repair and supply (mixers, aerators), motor control centers (supply and retrofit), sluice gates and slide gates (supply and rehabilitation), miscellaneous metals (platforms, stairs, handrail, grating), earthwork / excavation, trenching, and shoring, surveying, demolition and hauling.

Information regarding bonding, insurance, lines of credit, and any technical assistance or information related to the plans or specifications and requirements for the work will be made available to all interested firms. Plans and specs are available to view at our office and access to digital copies will be provided upon request.

For more information or to provide quotes, please contact:

Western Water, 707 Aviation Blvd, Santa Rosa, CA
Luke Sherman, Estimating Coordinator
bids@westernwater.com, Phone: (707) 540-9640, Fax: (707) 540-9641

Subcontractors will be required to comply with all subcontract insurance requirements, which include providing a waiver of subrogation endorsement to their worker's compensation insurance.

Interested subs and suppliers should complete and submit the attached solicitation form no later than 24 hours prior to bid.

WW is an AA/EEO/Veterans/Disabled Employer – CA License No. 188068

UCI HEALTH

REQUEST FOR QUALIFICATIONS
FOR
MASTER PLANNING SERVICES

Under the guidelines of CA Public Contract Code 10510.4 – 10510.9, the University is seeking one (1) best qualified firm with experiences in healthcare facilities to provide Master Planning Services for the UCI Health Lakewood and Los Alamitos Community Network Hospitals to study options for reconstruction and/or retrofit of the hospital, prepare phasing plans, and develop a comprehensive plan for the campus.

In March 2024, UCI Health completed the acquisition of Tenet Healthcare Corporation, bringing four established community hospitals – Fountain Valley Regional Hospital, Lakewood Regional Medical Center, Los Alamitos Medical Center, and Placentia Linda Hospital – along with their associated outpatient locations into the UCI Health system. The acquisition added approximately 858 inpatient beds to UCI Health and established what is now the UCI Health Community Network, significantly expanding the health system's presence across Orange County and southeast Los Angeles County.

As UCI Health continues the integration and strategic development of its Community Network, it has established a preliminary strategic and capital direction for Lakewood and Los Alamitos campuses, including an inpatient building addition at Lakewood and a new inpatient tower at Los Alamitos. The purpose of this master planning effort is not simply to advance these projects, but to validate the underlying strategic assumptions, key performance indicators (KPIs), clinical demand, operational requirements, and long-term campus needs that inform them. The selected master planning team will be expected to objectively test the current strategy against market conditions, demographic and population trends, utilization, clinical volumes, physician and service-line strategies, patient access, operational requirements, financial considerations, regulatory requirements, existing infrastructure, and the physical opportunities and constraints of each hospital.

The master plan will provide the foundation for UCI Health's Detailed Project Program (DPP) process and subsequent design, capital planning, and implementation activities. UCI Health seeks a master planning architect with academic knowledge, demonstrated expertise in complex healthcare environments, and the ability to connect strategic planning, healthcare demand analysis, clinical programming, financial considerations, and physical campus planning.

Est. Contract Value: $1,500,000 or greater

For questions related to this RFQ, please contact:
Kim Kerwin, UCI Health Planning, Design & Construction, Construction Contracts Manager - Email: **Khau@hs.uci.edu**

The complete RFQ packet will be available at: **https://www.ucihealth.org/about-us/planning-administration** under RFQ/advertisements for bids on **Wednesday, November 18, 2026**, responses to the RFQ are due by or **before 2:00 p.m. on Wednesday, December 16, 2026**. A screening committee will determine a shortlist of firms; further steps in the selection process will be at the selection committee's discretion.

Every effort will be made to ensure that all persons shall have equal access to contracts and other business opportunities with the University, regardless of: race; color; religion; sex; age; ancestry; national origin; sexual orientation; physical or mental disability; veteran's status; medical condition; genetic information; marital status; gender identity; pregnancy; service in the uniformed services; or citizenship within the limits imposed by law or University's policy. The selected consulting firm will be required to show evidence of their Equal Employment Opportunity policy.
