California politicians decide how quickly high-speed rail gets done

Gov. Gavin Newsom speaks during a press conference on the high-speed rail project at the Wasco Rail Yard facility in Wasco on Feb. 3, 2026.

By Carter Lavin and Avery Barrett, CalMatters

Construction crews have already electrified and upgraded the train corridor from San Francisco to San Jose, upgraded rail capacity in Los Angeles and are finishing 119 miles of high-speed rail guideway in the Central Valley, where tracklaying is imminent.

But while the hard-working union members moving earth and pouring concrete in California's heartland are doing their jobs, the politicians in Sacramento aren't. The next governor and state Legislature can fix that.

The high-speed rail project has made it through an obstacle course of red tape to get this far. Lawsuits over bond requirements and CEQA delayed the project by years and added billions to its cost.

Fortunately, those fights have largely been won. In 2017, the California High-Speed Rail Authority was finally able to spend the construction funds approved by voters in 2008. Two years ago, the project gained environmental clearance for every section of rail between San Francisco and L.A.

But there are three big hurdles still in the way that could be fixed by lawmakers and Gov.-elect Xavier Becerra: lack of collaboration from PG&E, the Authority being forced to do work that falls under Caltrans's responsibility and a block on outside investors helping fund key infrastructure.

Here's the 2027 Construction Economy Outlook, Written in Plain English

[Article originally appeared in https://www.constructconnect.com]

By Johnny Bradigan

In Short:

- **Construction remains uneven**, with data centers offsetting declines elsewhere.
- **Rising materials, fuel**, wages, and borrowing costs are squeezing contractors.
- **Construction starts may grow 6.9% in 2027**, but pipeline risks remain.

Between rising material prices, costly loans, and answers that differ depending on who you ask, there's a lot competing for your attention in the construction industry … but not enough time to sort through it all, right?!

That's precisely why the Chief Economists from ConstructConnect®, the American Institute of Architects (AIA), and the Associated General Contractors of America (AGC) come together twice a year for the Construction Economy Outlook webcast. They help cut through the noise, to give you a clear picture of what's going on economically in construction right now, and what to expect tomorrow.

The experts recently wrapped up the Fall 2026 edition. Here's what you need to know, in plain language.

Two Economies at Once, AKA a "K-Shaped Economy"

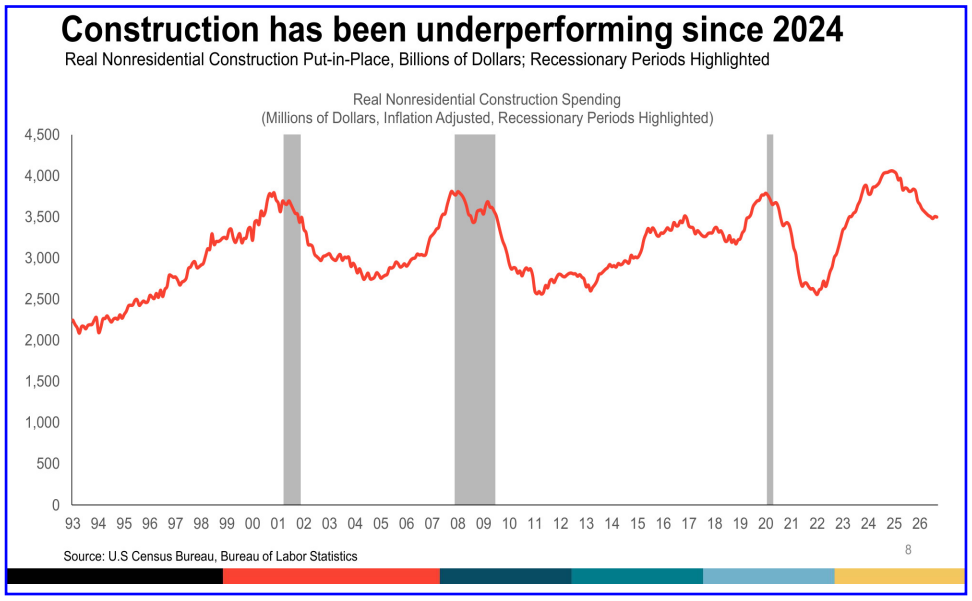

Construction isn't collapsing, but it isn't booming either.

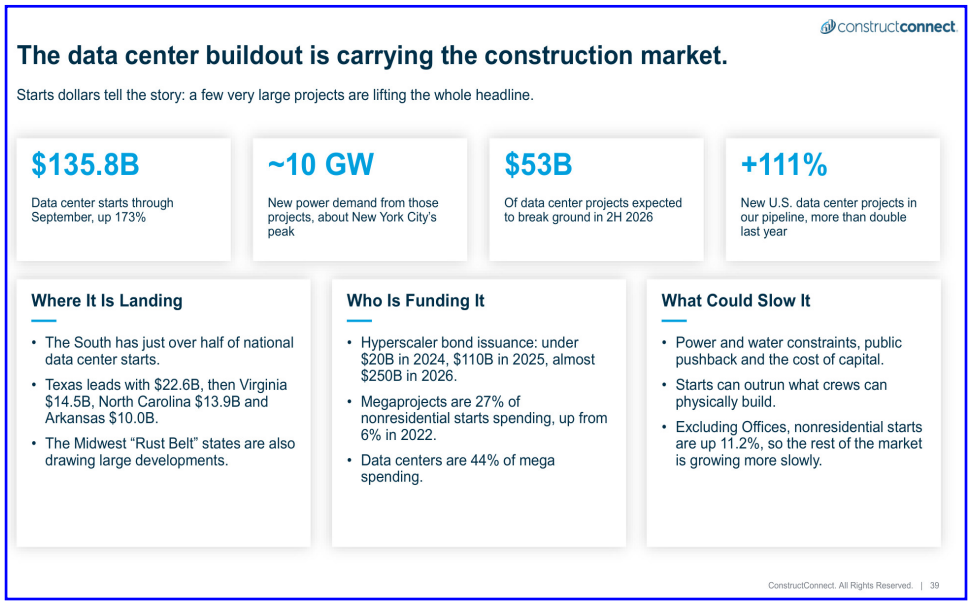

"It's surviving, but certainly not thriving," AIA Chief Economist Richard Branch says.

Inflation-adjusted spending on nonresidential buildings (think offices, warehouses, schools, and hospitals) has slipped for about two years, though Branch says it may finally be bottoming out.

"This is an economy that is not collapsing, but it sure doesn't feel like one that's particularly robust as well," Branch adds.

Economists call this a "K-shaped" market, referring to how the letter "K" looks. Some sectors and regions climb (the top part of the K), while others are pointing down and falling (the bottom part of the K).

"Two things can be true at the same time, right?" Branch reflects, "We are clearly dealing with two different economies."

Yes, Data Centers Are Holding Up the "K," but …

The upward arm of the K is from data centers, the huge buildings packed with computer servers that power AI and cloud services. ConstructConnect data shows data center "starts" (meaning projects actively breaking ground) reached $135.8 billion through September 2026, up 173% from last year.

Megaprojects, builds that cost $1 billion and up, now account for more than one out of every four nonresidential construction dollars.

For smaller firms, that cuts two ways. While ConstructConnect Chief Economist Michael Guckes says, "Who you know in the industry matters a little bit more than just, you know, what you can do," He adds that there can be rewards for those who dig deeper.

"And I think [data centers dominating our attention is] simply because the news, the media is so focused on data centers and understandably so," Guckes suggests. "But there's a lot of opportunities that if you're looking beneath those top-level numbers, if you're looking past the simple headlines, you can find a lot of opportunities still exist within construction."

Why Interest Rates Matter

When the Federal Reserve raises interest rates, borrowing gets more expensive. The Fed raised

California politicians decide how quickly high-speed rail gets done

Continued from page 1

PG&E and other utilities have a lot of infrastructure in the path of high-speed rail. The Authority needs the utility's cooperation to move equipment, and these companies have no incentive to move quickly. A single utility relocation can take years while the work around it stalls.

While the Authority has resolved many of these, there are 103 relocations that still need to happen just for the initial 119 miles — and thousands more to go before Los Angeles, the Central Valley and the Bay can be connected by high-speed rail.

The Legislature must step in and set reasonable deadlines for PG&E and others to complete necessary work.

For speed, reliability and safety reasons, a train moving at 220 mph cannot intersect with roads. The Authority has spent hundreds of millions of dollars rebuilding streets at dozens of locations, creating overpasses and other structures to ensure traffic flows safely. In the process, they often separate existing freight rail from roads as well — making communities less congested and safer.

The improvements made so far are expected to prevent thousands of crashes in the next three decades. This is critical road infrastructure, and 100% of the cost is coming out of the budget for high-speed rail.

Getting the High-Speed Rail Authority and Caltrans to collaborate more will speed the project along and save taxpayers billions.

Lastly, many deep-pocketed investors with an eye toward long-term projects — like pension funds — have expressed interest in working on tunnel infrastructure. The Legislature's strict limits on the project's activities outside the Central Valley have blocked the kind of planning that would make this work possible, creating unnecessary delay and preventing access to key resources.

CALIFORNIA SUB-BID REQUEST ADS

REQUEST FOR PROPOSALS

FROM CERTIFIED DISADVANTAGED AND SMALL BUSINESS (SBE/DBE/MBE/WBE) SUBCONTRACTORS, SUPPLIERS & HAULERS FOR:

Tahoe Cedars Water System Replacement Reconstruction Project
PROGRESSIVE DESIGN BUILD (PDB)

PHASE 2 PROJECT CONSISTS OF THE CONTINUED REPLACEMENT AND MODERNIZATION OF THE EXISTING WATER DISTRIBUTION SYSTEM WITHIN THE TAHOE CEDARS COMMUNITY. PHASE 2 INCLUDES APPROXIMATELY 23,500 LF OF NEW 8-INCH AND 12-INCH WATER MAIN, APPROXIMATELY 400 NEW WATER SERVICES, METER ASSEMBLIES, AND ASSOCIATED VALVES, FITTINGS, FIRE HYDRANTS, SERVICE CONNECTIONS, SYSTEM TIE-INS, AND ROADWAY RESTORATION. WORK WILL BE PERFORMED THROUGHOUT MULTIPLE DEVELOPED RESIDENTIAL ROADWAY CORRIDORS AND WILL INCLUDE SUPPORTING ACTIVITIES SUCH AS TREE REMOVAL AND ARBORIST SERVICES, TRAFFIC CONTROL, TRUCKING, ENVIRONMENTAL PROTECTION, AND SITE RESTORATION.

CONSTRUCTION IS ANTICIPATED TO BEGIN IN LATE APRIL 2027 AND CONCLUDE OCTOBER 2027. THE PROJECT AREA FOR THIS PHASE IS COMPLETELY WITHIN EL DORADO COUNTY.

Work Packages for the following scopes will be issued via BuildingConnected on December 3rd, 2026:

Tree Removal	Street Sweeping	Hydroseeding / Soil Stabilizing
Saw Cutting	Asphalt Milling	Wildlife Biologist
Traffic Control	Waterline Hot Tapping	Arborist
Trucking	Pavement Markings	

All subcontractors at every tier will use a skilled and trained workforce (STW) to perform all work on the project that falls within an apprenticeable occupation in accordance with CA PCC 2600.

Subcontractors, suppliers, and haulers interested in receiving an invitation to these work packages must register https://forms.cloud.microsoft/r/KE3XsQ8y9F

A non-mandatory Pre-Bid Meeting will be held virtually on December 10th, 2026 at 11:00am PST.

Bids for all Work Packages are due by January 12th, 2027 at 2:00pm PST.

GRANITE CONSTRUCTION COMPANY
1900 Glendale Ave• Sparks, Nevada
Phone: (775) 358-8792, An Equal Opportunity Employer- CA License 89

Here's the 2027 Construction Economy Outlook

Continued from page 1

rates 25 basis points (a quarter of a percentage point) in September 2026. For an owner or developer, a pricier loan can turn a "maybe" project into a "no," which means fewer jobs to bid.

Housing is where this impact is being felt the most, according to Branch.

"I think [a 6% interest rate] gets us stability in single family starts. I think 5.5% gets us growth."

The 30-year mortgage rate, meanwhile, averaged 7.11% on the day of the webcast, according to Freddie Mac data cited by AGC Chief Economist Ken Simonson.

Costs Are Climbing Faster Than Bids

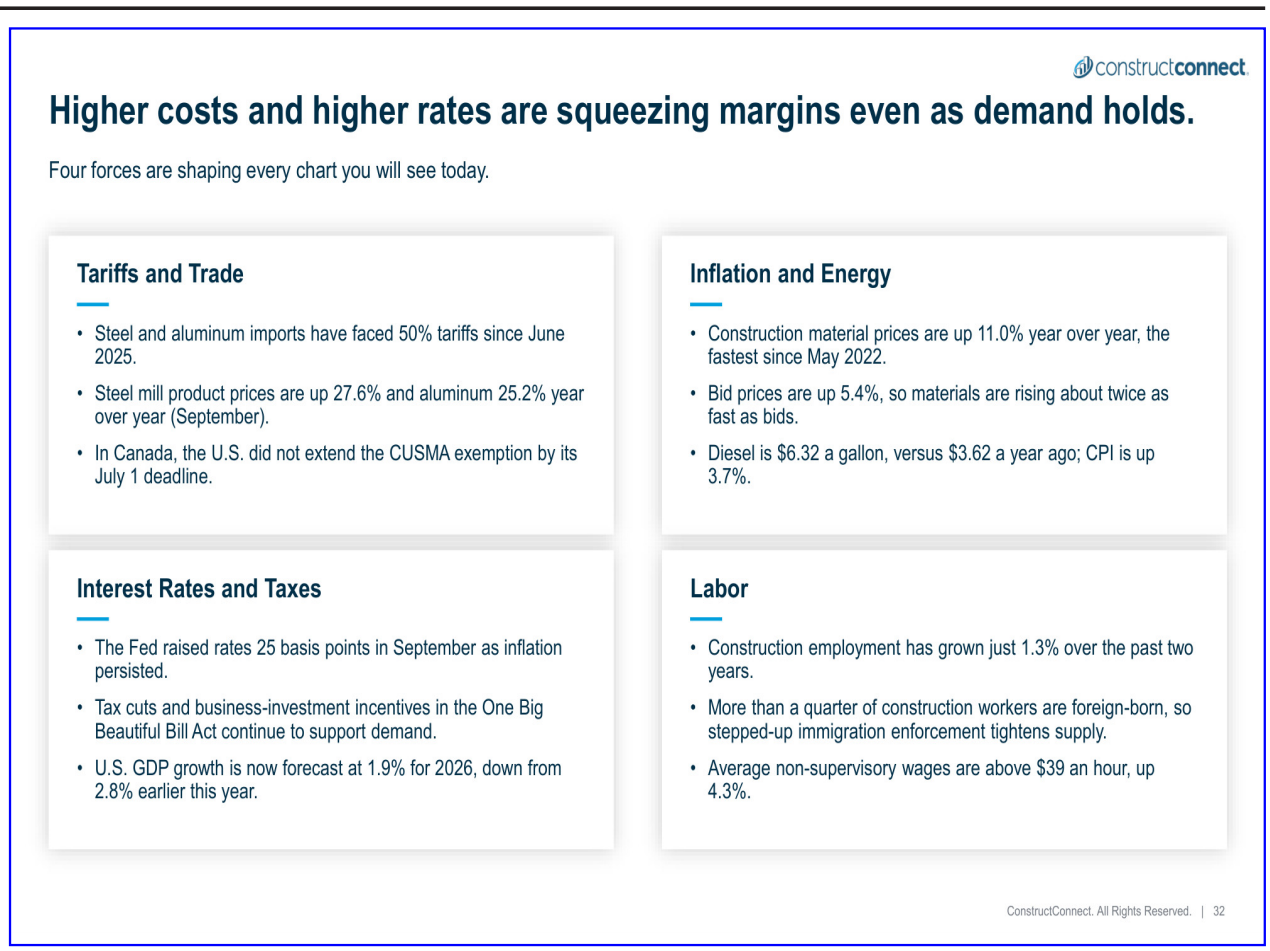

Our experts noticed producer prices (what manufacturers charge for materials) have gone up between 11% and 12% over the past year, while bid prices rose just 5.4%.

That means contractors are paying more to build than they're charging to bid, which squeezes margins. Tariffs of 50% on steel and aluminum and diesel at $6.32 a gallon, versus $3.62 a year ago, are big reasons why.

Pay is rising too. Construction hourly wages are up 5.2%, compared with 3.3% for the private sector overall.

Project No. 91864011, Contract No. C0720

30% SBE Participation

EE: $7.5 to $9 Million Bid Date: January 13, 2027, at 2:00 PM

****QUOTES NOT RECEIVED BY January 12th, 2027 MAY NOT BE REVIEWED OR EVALUATED****

Quotes must be received no later than Noon on 01/13/27 for evaluation

We are soliciting quotes for the following items of work including, but not limited to: Aggregates, Electrical, Hauling Services, Ready- Mix Concrete, Rebar, Street Sweeping, Surveyor Services, Welding, Bypass Drain, Erosion Control, Dust Control, Plants, Tilting Weir, Lamprey Refuge Box & Gate, Rock Screen, Pumps, Security, Fire Safety and Emergency Services, Sheet Piling, Electrical, Clearing & Grubbing Sawcutting and Environmental Monitoring.

CARB Certification will be required from listed subcontractors, or a formal explanation letter for why your firm does not have it.

100% performance and payment bonds will be required for the full amount of the subcontract price. Please contact us for any assistance with this solicitation, including obtaining bonding, insurance, equipment, materials and/or supplies. Provide subcontractor and supplier scopes/quotes as early as possible to enable estimators to perform a thorough evaluation of all scopes/quotes received. Quotes will be broken into comparable packages as reasonably necessary to facilitate participation. Quotes must be valid for the same duration as specified by the Owner for Contract Award. We are signatory to Operators, Laborers, Cement Masons, Carpenters & Pile Drivers Unions. Non-signatory subs will be required to sign an agreement for trades covered under our union agreements. We intend to work cooperatively with subcontractors/suppliers for all bid items you are licensed and qualified to perform. Bid items can be split to facilitate participation from all certified firms. We will reimburse for bond premium up to 2%.

Firms must possess & provide current contractor's license number & DIR number on the quote

Firms must possess insurance and workers compensation coverage meeting project requirements. Waiver of Subrogation is required. Please contact us for any assistance required by your firm. Subcontractors will be required to execute our standard subcontract agreement and agree to the standard general terms & conditions. Please contact us by email if you would like copies for review prior to bid day. All quotes must remain valid for the same duration as stated in the owner's specifications.

Contract Documents and related project information, including future Addenda, are available and can be downloaded for **FREE** from our Box ftp site by email request. Please send the email request to **NORCALBIDS@FDCORP.com** for access to plans & specs on our BOX ftp site. If you would like to speak to an estimator for a specific scope or work, please email us and we can schedule a virtual or in person appointment to review project docs. Complete sets of Contract Documents and related Supplemental Project Information Please email ALL Scopes/Quotes to: **NORCALBIDS@FDCORP.com**

Project: Site Modifications at the Palmyrita Water Treatment Plant for PFAS Removal
Owner: City of Riverside
Bid Date: December 16th, 2026 @ 2:00 P.M.
Engineer's Estimate: $ 37 Mil
Project Duration: 700 CDs

We are requesting quotes from all qualified MBE/WBE/EMOB Subcontractors and Suppliers but not limited to:

AGGREGATES, ASPHALT, CONCRETE MATERIAL, SLURRY, PIPE SUPPLIERS, PRECAST MATERIALS,STEEL TANKS/GLASS LINED ANALYTICAL TESTING, BYPASS PUMPING, CCTV, CONCRETE FLATWORK/STRUCTURES, CONSTRUCTION AREA SIGNS, DEMOLITION, DIRECTIONAL DRILLING, ELECTRICAL-BUILDING, FALSEWORK/SCAFFOLDING/FORMWORK, FENCING, GEOTECH ENGINEERS, GUARDRAIL, HANDRAILING, AIR-BLOWN MORTAR, REINFORCED CONCRETE PIPE, PLASTIC PIPE, LANDSCAPE/IRRIGATION, MASONRY, RENIFORCING STEEL, SAWCUTTING, STRUCTURAL STEEL, SURVEYING, SWPPP, TRAFFIC CONTROL, VIBRATION MONITORING, WELDED STEEL PIPE, TRUCKING, ACCESS DOORS/DOORS/HARDWARE, BLGF. MASONRY, PUMPING PLANT ELECTRICAL EQUIPMENT, EARTHWORK, GENERATORS/SWITCHGEAR, HVAC/MECHANICAL.DRAINAGE PUMPING EQUIPMENT, PAINTING/COATINGS, ROOFING,TANKS,WATERPROOFING ,GRATE, B-DECKING, WOOD TRUSS, VALVES/WATER MAIN/TEMP FACILITIES, BLDG INSULATION.

Project Description:

The scope of work includes but is not limited to; 1. Purchase, take delivery, and install IX Pressure Vessel systems at the Water Treatment Plant including pressure testing, disinfection, and bacteria testing.2. Purchase, coordinate and assist with the installation of Ion Exchange (IX) media into IX pressure vessels.3. Furnish and install a prefilter system for the Ion Exchange (IX) system.4. Furnish and install Booster Pump Station.5. Construct structural concrete at the Palmyrita Water Treatment Plant Site Modifications for PFAS Removal.6. Connect to the Water Treatment Plant and to the distribution system. Furnish and install cement mortar lined and painted above ground piping, cement mortar lined and mortar coated below ground piping, epoxy lined and cement mortar coated below ground piping, and epoxy lined and painted above ground piping. Provide Traffic Control7. Paving and Site Improvements, including grading, PCC paving, asphalt paving, stormwater treatment and BMPs, block wall, driveway, access way, landscaping and irrigation replacement and drainage at the new water treatment plant.8. Electrical and Instrumentation equipment and facilities at the new water treatment plant.9. Furnish and install backup generator10. Provide Commissioning and startup services.11. Construction of the connection to the distribution system for treated water.12. Construction of all control and instrumentation equipment and facilities including completing all programming and SCADA integration, and coordination of programming with RPU's Instrumentation and Controls specialist.13. Training and the provision of Operations and Maintenance documentation.14. Commissioning, Training and Acceptance Testing.

CALIFORNIA SUB-BID REQUEST ADS

Mountain Cascade Inc.
555 Exchange Court, Livermore, CA 94550
(925) 373-8370, Fax (925) 373-0940

Project: Walnut Creek Water Treatment Plant Filters Improvements
Owner: EBMUD
Bid Date: December 2nd, 2026 @ 2:00 P.M.
Engineer's Estimate: $ 20 Mil - $25Mil
Project Duration: 1250 CDs

We are requesting quotes from all qualified MBE/WBE/EMOB Subcontractors and Suppliers but not limited to:

CONCRETE MATERIAL, CONCRETE SUBS, CATHODIC PROTECTION, ELECTRICAL- BUILDING, PLASTIC PIPE, STEEL PIPE, PIPE SUPPLIERS, CONCRETE REPAIR, REINFORCING STEEL, PIPE SUPPORTS, MISC. METALS, ABESTOS ABATEMENT, PAINTING/COATINFS, VALVES/WATER MAIN/TEMP FACILITIES, DRAINAGE PUMPING EQUIPMENT, PUMPING PLANT ELECTRICAL , GENERATORS/SWITCH GEAR.

Project Description:

The scope of work includes but is not limited to;

1. Filters 1 through 4:

a. Demolish existing Wheeler Bottom underdrains.

b. Replace and provide new underdrains, troughs, media, stop logs, applied channel overflow pipes, valves, and gaskets.

c. Demolish existing surface wash piping; furnish, install, and demolish temporary surface wash piping. Furnish and install new air scour piping.

d. Furnish and install new lighting panel.

2. Filters 5 through 8:

a. Replace and provide new troughs and valves.

b. Investigate and repair the water leak at Filter 5 Right (5R) filter box. Replace all media with new media in Filter 5R.

c. For Filters 5 through 8 except for Filter 5R, replenish lost media with new media to the levels indicated in the design drawings.

d. Demolish Filter 5 & 7 Foundation Fieldbus, replace with District-furnished instrumentation, and replace and rewire valve boards.

3. Pipe Gallery

a. Demolish Washwater Supply (WWS) tee, flow control valve (FCV), pipe loop and supports. Furnish and install 24"/20" WWS bypass, supports and valves.

Provide new cross, valves, associated piping, and instrumentation.

b. Demolish polyblend tank, including concrete curbs.

4. Blower Building

a. Replace and provide new switchboard.

5. Operations Building

a. Furnish and install 800A Manual Transfer Switch (MTS) with generator connection box. Reroute existing, replace and provide new cable.

Bid Date: December 4th, 2026 @ 2:00 P.M.

We are requesting quotes from all qualified DBE Subcontractors and Suppliers but not limited to:

AGGREGATES, ASPHALT, CONCRETE MATERIAL, SLURRY, LOW DENSITY CELLULAR GROUT, PIPE SUPPLIERS, PRECAST MATERIALS, EROS MATERIALS, ANALYTICAL TESTING, BYPASS PUMPING, CATHODIC PROTECTION, CCTV, CONCRETE FLATWORK/PUMPING/STRUCTURES, DEMOLITION, DEWATERING, ELECTRICAL-BUILDING, ELECTRICALSTREETLIGHTS/TRAFFICSIGNALS/LOOPS,EROSIONCONTROL,FALSEWORK/ SCAFFOLDING/FORMWORK, FENCING, GEOTECH ENGINEERS, HANDRAILING, HYDROSEEDING, PLASTIC PIPE, JOINT SEAL, LANDSCAPING/IRRIGATION, MASONRY, REINFORCING STEEL, SAWCUTTING, SHORING SUBS, SOIL REMEDIATION, STRIPING, SWPPP, TRAFFIC CONTROL, TREE REMOVAL/ARBORIST, VIBRATION MONITRING,WELDED STEEL PIPE, CRANE RENTAL, TRUCKING, ACCESS DOORS/DOORS & HARDWARE, ACOUSTICAL, BLDG. MASONRY, BLDG. CONSTRUCTION, PUMPING PLANT ELECTRICAL EQUIPMENT, DAMPPROOFING, DRYWALL, EARTHWORK, FIRE PROTECTION, GENERATORS/SWITCH GEAR, HVAC/MECHANICAL, DRANIAGE PUMPING EQUIPMENT, PAINTING/CAOTING, PIPE INSULATION, PLUMBING, ROOFING, STUCCO, TANKS, WATERPROOFING, GRATE, B-DECKING, WOOD TRUSS, VALVES/WATER MAIN/TEMP FACILITIES, GLASS & MIRROR, BLDG. INSULATION, LINER.

Project Description:

The scope of work includes but is not limited to; Demolition of existing influent pump station, metering station, electrical service and switchgear, existing utilities, yard piping, and hydraulic control structures.

2. De-sludging existing aeration ponds 1 and 3, removal of liner and filling pond (abandoning ponds) for new membrane bioreactor (MBR) and buildings.

3. Construction of a new influent lift station, new working equalization (EQ) tank, effluent pump station, vactor truck dump basin, septage receiving station, influent EQ pond and pump station, three (3) new percolation beds.

4. Coordination with equipment vendor to install supporting infrastructure for pre-purchased equipment packages (owner furnished contractor installed, OFCI) to include:

a. Headworks skid with course screen, fine screen and de-grit system

b. MBR skid

c. UV disinfection skid

d. Sludge tank and dewatering press skid

e. Generators

5. Influent Lift Station and Effluent Pump Station control panels and programming. Working EQ Tank and Influent EQ Pond Pump Station control panels and programming provided by equipment vendor as part of consolidated control panel located at the pre-purchased headworks skid by Cloacina.

6. De-sludging Ponds 2 and 4, and refurbishment of the ponds into new influent equalization pond and effluent holding pond with new liner penetrations.

7. New electrical building, covered vehicle parking, vehicle wash bay, fueling station, trash enclosure, parking lot, sidewalks, landscape, stormwater detention pond, gates and fencing, site roads and drainage.

8. New potable water backflow device and onsite piping, new fire service and on-site piping, new on-site recycled water system, new yard piping and hydraulic diversion structures and flow control boxes.

9. New electrical equipment and other incidental Work to provide a complete and operational wastewater treatment facility (WWTF) upgrade & expansion as shown and specified in the drawings and technical specifications.

UCI HEALTH

REQUEST FOR QUALIFICATIONS FOR MASTER PLANNING SERVICES

Under the guidelines of CA Public Contract Code 10510.4 – 10510.9, the University is seeking one (1) best qualified firm with experiences in healthcare facilities to provide Master Planning Services for the UCI Health Lakewood and Los Alamitos Community Network Hospitals to study options for reconstruction and/or retrofit of the hospital, prepare phasing plans, and develop a comprehensive plan for the campus.

In March 2024, UCI Health completed the acquisition of Tenet Healthcare Corporation, bringing four established community hospitals – Fountain Valley Regional Hospital, Lakewood Regional Medical Center, Los Alamitos Medical Center, and Placentia Linda Hospital – along with their associated outpatient locations into the UCI Health system. The acquisition added approximately 858 inpatient beds to UCI Health and established what is now the UCI Health Community Network, significantly expanding the health system's presence across Orange County and southeast Los Angeles County.

As UCI Health continues the integration and strategic development of its Community Network, it has established a preliminary strategic and capital direction for Lakewood and Los Alamitos campuses, including an inpatient building addition at Lakewood and a new inpatient tower at Los Alamitos. The purpose of this master planning effort is not simply to advance these projects, but to validate the underlying strategic assumptions, key performance indicators (KPIs), clinical demand, operational requirements, and long-term campus needs that inform them. The selected master planning team will be expected to objectively test the current strategy against market conditions, demographic and population trends, utilization, clinical volumes, physician and service-line strategies, patient access, operational requirements, financial considerations, regulatory requirements, existing infrastructure, and the physical opportunities and constraints of each hospital.

The master plan will provide the foundation for UCI Health's Detailed Project Program (DPP) process and subsequent design, capital planning, and implementation activities. UCI Health seeks a master planning architect with academic knowledge, demonstrated expertise in complex healthcare environments, and the ability to connect strategic planning, healthcare demand analysis, clinical programming, financial considerations, and physical campus planning.

Est. Contract Value: $1,500,000 or greater

For questions related to this RFQ, please contact: Kim Kerwin, UCI Health Planning, Design & Construction, Construction Contracts Manager - Email: **Khau@hs.uci.edu**

The complete RFQ packet will be available at: **https://www.ucihealth.org/about-us/planning-administration** under RFQ/advertisements for bids on **Wednesday, November 18, 2026**, responses to the RFQ are due by or **before 2:00 p.m. on Wednesday, December 16, 2026**. A screening committee will determine a shortlist of firms; further steps in the selection process will be at the selection committee's discretion.

Every effort will be made to ensure that all persons shall have equal access to contracts and other business opportunities with the University, regardless of: race; color; religion; sex; age; ancestry; national origin; sexual orientation; physical or mental disability; veteran's status; medical condition; genetic information; marital status; gender identity; pregnancy; service in the uniformed services; or citizenship within the limits imposed by law or University's policy. The selected consulting firm will be required to show evidence of their Equal Employment Opportunity policy.
