# Mayor Garcetti hosts Clean Transportation Forum with Paris Mayor Hidalgo, announces new online platform to help cities electrify their fleets

**The Mayor also helped unveil a new 2028 Zero Emissions Roadmap to accelerate the reduction of air pollution over the next decade.**

Mayor Eric Garcetti brought climate and industry leaders together for a forum on clean transportation, which he hosted alongside Paris Mayor Anne Hidalgo ahead of this week's Global Climate Action Summit in San Francisco.

Mayors Garcetti and Hidalgo, with a group of thought leaders and policymakers from across the country, discussed innovative ways for cities around the world to make their transportation systems more sustainable — a critical goal for Paris and Los Angeles as they prepare to host the Olympic and Paralympic Games in 2024 and 2028, respectively.

Mayor Garcetti discussed the L.A. Cleantech Incubator's 2028 Zero Emissions Roadmap, a new blueprint to help cities accelerate progress on their emissions reduction goals.

And he announced the launch of the Climate Mayors Electric Vehicle (EV) Purchasing Collaborative — a new online portal that will help lower the cost of electric vehicles by enabling cities to bid on them together in larger quantities. The portal will provide cities across the country equal access to competitive pricing and charging infrastructure.

"The clean transportation revolution is not a distant vision for the far-off future — it's a reality staring us in the face, and it's happening here in Los Angeles and cities across the world," said

Mayor Garcetti. "Through this innovative platform, Climate Mayors are sending a powerful message to the global car market: if you build electric vehicles, we will buy them."

The portal is an unprecedented effort to help cities across the country rapidly electrify their municipal fleets. As a result of the new platform, 20 founding Climate Mayors' cities and two counties have committed to purchasing 391 EVs — a figure that is expected to grow as the program continues to engage cities across the country.

Transportation is the largest and fastest-growing source of U.S. greenhouse gas emissions. By leveraging the buying power of Climate Mayors' cities, the portal will work to accelerate the electrification of local fleets — and help America maintain its commitment to the Paris Climate Agreement.

The platform was developed in partnership with the Electrification Coalition (EC), which will offer expert guidance and information to cities as needed — enabling a more efficient conversion of city fleets and faster expansion of charging infrastructure.

"Today's announcement demonstrates impressive and innovative leadership from cities to electrify their fleets. By transitioning to electric vehicle fleets, we are reducing our oil depen-

dency, driving the EV market and taking a critical step towards meeting the goals of America's Pledge on climate change" said Ben Prochazka, Vice President of the Electrification Coalition. "We are excited to partner with more than 400 cities to provide the tools and resources needed to make it easier for every city in the U.S. to plug-in their fleets into an electric transportation future."

The portal was unveiled today at Mayor Garcetti's Forum on Clean Transportation, a roundtable discussion with key industry and sustainability leaders on collective actions to increase local and international clean transportation initiatives. Mayor Garcetti was joined by Anne Hidalgo, Mayor of Paris and Chair of C40 Cities — a network of 96 megacities committed to urgent action on climate change.

"It is inspiring to see so many American Climate Mayors committing to transform their fleets into electric vehicles," said Anne Hidalgo, Mayor of Paris and Chair of C40 Cities. "They are part of an unstoppable global momentum for change. Thanks to the bold leadership shown by C40's member cities, millions of polluting cars, vans, and buses will soon be replaced by clean alternatives. Cities are concretely getting the job

## 10 Safety Tips for General Contractors

**Eric Weisbrot is the Chief Marketing Officer of JW Surety Bonds**  
*By Eric Weisbrot,*

Among general contractors, one of the biggest concerns on each job site is providing a safe working environment that not only protects employees, subcontractors, vendors, and suppliers, but that also allows for efficient, safe progress toward the end goal. However, with more than

6 million individuals working in the construction industry, it is no surprise that accidents are common. Throughout the United States, there are roughly 150,000 construction accidents each year. To help avoid being part of the growing accident statistics, licensed general contractors must take precautions on the job to ensure through the following safety tips.

### 1. Protective Gear

One of the easiest ways to ensure safety on a construction job site is to require protective gear be worn by all workers and visitors. Protective gear comes in many different forms, including eyewear, steel-toed shoes, gloves, and hardhats, all which make a difference in the safety of a site among workers. In addition to mandating the use of protective gear, general contractors must also encourage workers to inspect the condition of the items before use. This helps to safeguard individuals from unnecessary accidents.

### 2. Equipment Loading and Unloading

On each job site, general contractors must also encourage employees and subcontractors to

pay close attention to the loading and unloading of equipment. When working with heavy or awkward materials and supplies, the chance for a machine to roll is high. Workers need to be careful when loading and unloading this type of common construction site material, having more than one person involved in the process, and following guidelines throughout.

### 3. Getting In and Out of Equipment

In addition to loading and unloading equipment, general contractors should share the importance of taking it slow when getting in and out of equipment or machinery used on the job. Some common safety tips in this arena include checking for slippery surfaces and unstable footing, using a ladder when necessary, and asking for help when warranted. Avoiding fast movement when getting on and off a piece of equipment is also beneficial in keeping safety standards high.

### 4. Promoting Ladder Safety

Getting up and down ladders on a construction site is a common pitfall for safety issues. General contractors can encourage the safe use of

ladders by promoting ladder safety training to start. Construction site workers should also be reminded that there is an appropriate ladder to use for each job, not a one-size-fits-all solution. Ladders should also be inspected to determine their working condition, and workers should always maintain three points of contact when climbing up or down.

### 5. Hiring Experienced Workers

Subcontractors are a vital part of almost all construction worksites, but not all are created equal. It is up to the general contractor to know the experience other contractors bring to the table, as well as their individual licensing and bonding qualifications. Take a close look at work experience for any new contractor hired for a job, and be sure to vet their references when provided. This offers some peace of mind that safety guidelines will be met throughout the job.

### 6. Being Aware of Potential Hazards

Not all general contractors spend each day on a job site, but it is crucial to, at a minimum, take

## Smart Ways TO WORK

by Odette Pollar

### Handling Reading

What should you do with all of those things you saved with the good intention to read them soon? You know, that stack or that box of magazines, professional journals, newsletters and generally interesting stuff? It is amazing how rapidly it can grow out of your reading drawer, cascade down the side of the desk, and finally end up residing in stacks and boxes. There is so much information available now, even before we consider all of the electronic resources, that it is easy to become overwhelmed. Here are some suggestions on how to keep the stacks down while staying current on key events in your field.

### Recognize Your Limitations

Depending on how severe your situation, it is quite possible that you will not be able to catch up on your entire backlog. If it has been sitting for six months or longer, throw it out. Once it is this old, even if you do find time to read it, it will no longer be current. Reading piles do not age gracefully. They serve no purpose unread, collecting dust or making you feel guilty. In spite of the fear of not being caught up with the latest information, the truth is you have survived quite well to this point without it. Rather than try to catch up focus instead on strategies for staying current. From today onward what will you do differently?

### Evaluate

Evaluate the publications you receive by asking, “What would happen if I did not get it?” “How often does it offer something genuinely useful, not just interesting?” “Which periodicals offer the most information in the best format?” Information is only useful if it informs you; therefore,

it is better to read in-depth, understand, and use three or four publications than to subscribe to more, just to have them sit unread. Take the few minutes to remove yourself from distribution lists and cancel subscriptions to publications you rarely read.

### Staying Current

Here are four actions you can take when processing the reading stack:

1. Scan first and make a decision. Every fact cannot be as salient as the next. When you keep an item, ask how likely you are to use it again in the near future. This helps to screen out the nonessential. Many to-read items actually need to be thrown away (or recycled.)
2. Read it and file with related information. If the material to read is short, then read it the first time you touch it, and put it away immediately

3. File the information with related material unread. In-depth reading generally takes too long when it first crosses your desk. As you sort through your in-basket, skim the periodical, clip the article of interest and file immediately. If your last staff meeting was discussing flexible work time, when you notice an article in the Harvard Business Review on engineering firms that implemented flextime, cut it out and place it in the file. After you have gathered all the information and are ready to compare options, then read it fully.
4. Route it to someone else. Routed items, reports and catalogs often get sent to the wrong person. When this happens, identify the correct person and send it along.

### Reading Tips:

1. Read the conclusion or recommendations section first. Go back to the text for details only if necessary.

# Access to Capital

## 10 Small Business Grants & Loans for Veterans

[Article was originally posted on [www.nav.com](http://www.nav.com)]

By Connor Wilson,

The 21.8 million veterans in the United States have made remarkable sacrifices in their service and deserve all the appreciation they receive and more. Their time in the military and the skills they’ve developed give them a distinct perspective, which they can use to start amazing businesses. Like any person trying to start their own business, veterans need capital to get things off the ground. Multiple institutions offer grants or financing options with specific benefits for veterans.

Generally, to qualify for veteran grants or financing, you must fall into one of the following categories:

- Honorably Discharged Veterans (some grants may specify a particular conflict or time period, e.g. post-9/11 era)
- Service-Disabled Veterans
- Active Duty Military service member participating in the military’s Transition Assistance Program (TAP)

- Reservists and National Guard Members; or
- Current spouse of any Veteran, Active Duty service member, or any Reservist or National Guard member; or widowed spouse of a service member who died while in service or of a service-connected disability.

If you fall into one or more of the above categories, here are some possible options for you to finance or move your business along.

### 1. SBA Veterans Advantage 7(a) Loan

The 7(a) loan is the Small Business Association’s primary and most popular program. With longer terms and potentially lower down payments than other financing options, it’s a great option when you’re looking for capital for your small business. Typically, the SBA, or many other lenders, require an upfront guarantee fee. For SBA 7(a) loans made to qualifying Veteran-owned businesses under \$125,000, the upfront guarantee fee will be \$0.

As the loan amount goes up, the SBA may still require a fee, but at a discounted rate compared to those for non-veteran owned businesses.

### 2. Military Reservist Economic Injury Disaster Loan Program (MREIDL)

In the situation that an essential employee has been called to active duty, the business may qualify for MREIDL. Funds from this loan program can be used to “provide the amount of working capital needed by a small business to pay its necessary obligations as they mature until operations return to normal after the essential employee is released from active military duty.”

The loan amount can be up to \$2 million based on the SBA’s assessment, and any loan over \$50,000 requires collateral, in the form of real estate when possible.

### 3. StreetShares Foundation

StreetShares Foundation was established with veteran small-business owners in mind. Apart from offering lines of credit, term loans, and government-contract financing to cover the cost of payroll and equipment before invoices are paid. This year, they awarded \$15,000 after an application period to a veteran-owned small business. Keep an eye on them for future

reward opportunities and check out their current financing options.

### 4. Hivers and Strivers Angel Fund

Hivers and Strivers is an angel fund looking to assist military academy graduates with their startups. Their investments range from \$250,000 to \$1 million per round, and they may syndicate with other groups for larger investments. If you’re a graduate of one of the military academies and have a small business idea, you can make your submission on their website.

### 5. VA Office of Small & Disadvantaged Business Utilization (OSDBU)

The Department of Veterans Affairs offers potential assistance to businesses owned by economically disadvantaged individuals through their Office of Small and Disadvantaged Business Program. Their goal as a department is to provide these businesses with as many government contracts as possible. While this is not a financial grant or loan, the allocation of these contracts could mean money in the bank if your business qualifies.

Refer to Contract Section 00 48 10.01 for more information.

Subcontractors and Suppliers interested in this project may contact  
Jerry Blazek by email at [jblazek@shimmick.com](mailto:jblazek@shimmick.com).

100% Performance and Payment bonds with a surety company subject to approval of Shimmick Construction Company, Inc. are required of subcontractors for this project. Shimmick Construction will pay bond premium up to 1.5%. Subcontractors will be required to abide by terms and conditions of the AGC Master Labor Agreements and to execute an agreement utilizing the latest SCCI Long Form Standard Subcontract incorporating prime contract terms and conditions, including payment provisions. Shimmick Construction's listing of a Subcontractor is not to be construed as an acceptance of all of the Subcontractor's conditions or exceptions included with the Subcontractor's price quote. Shimmick Construction requires that Subcontractors and Suppliers price quotes be provided at a reasonable time prior to the bid deadline to enable a complete evaluation. For assistance with bonding, insurance or lines of credit contact Scott Fairgrieve at (510) 777-5000.

# California Sub-Bid Request Ads

**McCarthy Building Companies – Parking Structures Division**

Seeking SBE and DVBE Subcontractors and Suppliers for:

California State University, Fullerton Eastside 2 Parking Structure  
DESIGN BUILD STRUCTURE  
Fullerton, CA 92831

## INVITATION TO PREQUALIFY FOR CALIFORNIA STATE UNIVERSITY, FULLERTON TOCA 096 PROJECT

### DUE DATE FOR PREQUALIFICATIONS

Requesting completed prequalification forms from  
Subcontractors by Friday September 21, 2018

### OUTREACH REQUIREMENTS:

**10% DVBE and 30% SBE**

### PROJECT INFORMATION AND DESCRIPTION:

CSUF TOCA 096 - ANTICIPATED PROJECT  
BID DATE: October 5th, 2018

### **CSUF Natural Gas Line upgrades**

**Estimated Budget: \$395,000**

The new gas pipe routing will attempt to follow the path of the existing natural gas distribution network where possible. Underground lines will be replaced up to the existing building regulators. In addition, a number of the buildings will have new earthquake valves installed at their connection to the distribution piping to bring them up to code and gas meters will be provided at high usage buildings that the campus would like to monitor. Underground lines will be replaced on the east side of the campus from the end of the utility tunnel to serve Gerontology and Health Center and on the south side of the campus from the SoCalGas main meter. All natural gas pipe will be Medium Density Polyethylene (MDPE) pipe.

### TRADES:

CSI Divisions 1 thru 32 Including but not limited to: Surveying, Abatement, Sawcutting, Demolition, Shoring, Electrical, Plumbing Site Utilities, Concrete, A.C. Paving, Misc. Metals, Signage, Landscape & Irrigation, Sheet Metal, Striping, Clean up.

### Required Submittals

Completion of Swinerton Master  
Service Agreement (MSA)  
Swinerton Prequalification

Subcontractors are encouraged to begin the  
Swinerton Prequalification process at:

<http://www.swinerton.com/subcontractors/subcontractor-prequal>

Prequalified Subcontractors will be  
eligible to bid the project.

**For additional information on prequalification,  
please contact:**

**Veronica Miguel at**  
**[vmiguel@swinerton.com](mailto:vmiguel@swinerton.com) or 213.896.3439**

## Kiewit

## JOINT WATER POLLUTION CONTROL PLANT EFFLUENT OUTFALL TUNNEL PROJECT County Sanitation District No. 2 Los Angeles County **Bid Date: October 9, 2018 – 2:00 PM**

Skanska-Kenny, a Joint Venture (SKJV) is interested in soliciting subcontractors, material suppliers, services consultants and vendors; especially DBE subcontractors, material suppliers, services consultants and vendors, related to the scopes of work below for the Los Angeles County Sanitation Districts Joint Water Pollution Control Plant - Effluent Outfall Tunnel. Quotes will be requested from Subcontractors, Vendors, Professional Service and Trucking firms.

**All Quotes are due, October 3rd, 2018 so that all bids/proposals can be fairly evaluated.**

**This project is subject to American Iron and Steel Requirement.**

Requested scopes include, but are not limited to the following and should be based on the projects RFP and its amendments.

**Subcontractors:** Construction Area Signs, Drainage Systems & Structures, Electrical, Tunnel Electrical, Erosion Control / Hydro-seeding, Fencing and Gates, Guardrail, Joint Seals, Landscape, Materials Testing, Masonry Walls, Post Tensioning, Rebar Furnish & Install, Striping & Markings, Survey (Construction), SWPPP, Traffic Control, Trucking, Underground Utilities, Cast-in-Place Concrete, Asphalt Paving, Minor Concrete, Shoring, Painting and Coating, Pumps and Valves, Instrumentation, Piping, Potholing, Tunnel Ventilation, Jet Grouting, Building Demolition, Lead & Asbestos Removal.

**Material Suppliers:** Base & Aggregates, Asphalt, Concrete Form Materials, Concrete Pumping, Concrete Ready Mix, Drainage Structures, Erosion Control Material, Pipe, Steel Pipe, Rebar, Traffic Control Devices, Miscellaneous Metals, Structural Steel.

**Services/Vendors:** Sound, Vibration, Geo & Air Quality monitoring, Site Security, Office Supplies, Reprographics, Sweeper Truck, Water Trucks, Job-site Sanitation, Janitorial, SWPPP, Progress Photography, Catering, QA/QC, Testing & Inspection, Document Control

**Assistance:** SKJV will assist qualified subcontractors, vendors, & suppliers in obtaining bonding, lines of credit, insurance, necessary equipment, materials and/or supplies. If you are a DBE Company, please provide your certification letter with your proposal.

**Also DBEs must fill out and return with their bid the DBE Subcontractor Performance Form.** If you are a non-DBE, please indicate all lower-tier participation on your quotation as it will be evaluated with your price. In order to assist DBE subcontractors and suppliers, we will divide total requirements into smaller packages, tasks or quantities & establish delivery & construction schedules which will permit maximum participation when feasible. We will also review breaking out scope packages and adjusting schedules to assist permit maximum participation.

Plans and Specifications are available for view at our main office in Riverside (Please call or email for appointment)

**Subcontracting Requirements:** SKJV's insurance requirements are Commercial General Liability (GL): \$1M ea. occ., \$1M personal injury, \$2M products & completed operations agg. & general agg; \$1M Auto Liability; \$5M Excess/Umbrella and \$1M Workers Comp. Endorsements and waivers required are the Additional Insured Endorsement. Primary Wording Endorsement, & a Waiver of Subrogation (GL & WC). **Other insurance requirements may be necessary per scope or RFP requirement.** Subcontractors may be required to furnish performance & payment bonds in the full amount of their subcontract by an admitted surety & subject to approval by SKJV. Quotations must be valid for the same duration as specified by the Owner for contract award. Conditions or exceptions in Subcontractor's quote are expressly rejected unless accepted in writing. SKJV is signatory to the Operating Engineers, Laborers, Cement Masons, & Carpenters Unions. Subcontractors must provide weekly, one original and one copy of all certified payrolls, including non-performance and fringe benefit statements if required by law or by the Prime Contract.

# Maricopa County, AZ

## Sub-Bid Request Ad

**Project: Pima Freeway (SR 101) Interstate 17 to Pima Road**  
**Design and Construct General Purpose Lanes**  
**ADOT Project Number: 101-B-(213)S; TRACS Number: F012101C**  
**PLEASE SUBMIT PROPOSALS BY OCTOBER 1ST, 2018**  
**DBE Goal 8.35%**

The Department programmed amount for design and construction of this project is \$185,400,000. The proposed Design-Build project is in Maricopa County on SR 101L, from I-17 to Pima Road. The scope includes design and construction for new general purpose lanes on SR 101L in both travel directions. The work includes constructing pavement, structures, retaining walls, barrier, drainage, signing, pavement markings, street lighting, traffic signals, ITS, utilities relocation, landscape restoration, and AR-ACFC.

For the ADOT Design Concept Report (DCR) and RFP Specifications, please visit:  
<https://www.azdot.gov/business/ContractsandSpecifications/AdvertisedAlternativeDeliveryProjects>

**Please contact Coffman Ames Joint Venture to receive a sub-quote package when they become available.**

Coffman Ames Joint Venture is seeking quotes from small business enterprises, including certified DBE firms to perform work on the project, including, but not limited to, the following items of work:

• Removals	• Landscaping	• Fencing
• Bridge Demo	• Trucking	• Guardrail
• Traffic Control Services	• Milling	• Miscellaneous Metal
• Pavement Markings	• Asphalt Paving	• Deck Joints
• Signs and Sign Structures	• Saw and Seal Joints	• Bearing Pads
• Concrete Barrier Rail	• Slope Paving	• Painting
• Noise Walls	• Drilled Shaft Foundations	• Form-liners
• Reinforcing Steel	• Aggregate and AC Bases	• Concrete Pumping
• Electrical and Lighting	• Precast Girders	• QC and Material Testing
• Drainage	• Post Tensioning	• Surveying
• Erosion Control	• Concrete Curb and Gutter	• Site Biologist

Quotations must be valid for the same duration as specified by the Owner for contract award. Insurance and 100% Payment & Performance Bonds will be required. Coffman Ames Joint Venture will pay up to 1.5% for the cost of the bond. Waiver of Subrogation will be required. We will provide assistance or advice with obtaining bonds, insurance, lines of credit, and equipment. Subcontractors must provide their AZ contractor's license number with their quote. DCR Plans and RFP Specifications are available at no cost to interested DBE firms from the ADOT website at the web address listed above. Confidential sub-quote bid packages will be available at no cost to interested DBE firms directly from Coffman Ames Joint Venture. You must have a valid AZ UTRACS registration. This project requires Certified Payroll. We are an EOE & seriously intend to negotiate with qualified firms.

## Sub-Bid Request Ad

REQUEST FOR QUOTES FROM CERTIFIED DBE/MBE/WBE/SBE/SWBE/SMBE  
SUBS AND SUPPLIERS FOR:

**Secondary Treatment Plant Upgrade and Recycled Water Expansion**  
**Marin County, California**  
**Las Gallinas Valley Sanitary District • Job No. 12600-07/16650-02**  
**BID DATE: September 27, 2018 at 2:00 PM**

We are soliciting quotes for the following Divisions and items of work:

For Divisions 02 – 09, 13, 22, 23, 26, 31, 33, 40, & 43 including, but not limited to: Demolition, CIDH, Rebar, Painting, Underground Utilities, Fencing, Striping, Electrical & Integration, Ready Mix, Concrete Pumping, Misc. Metals, QC Testing, Site Construction, CMU Masonry, Handrails, Grating, Roof Trusses, Standing Seam Roof, Joint Sealants, Waterproofing, Doors & Glazing, Stucco, Tile, Precast Concrete Vault, Plumbing, HVAC, Metal Building System, Gates, and Pumps

Non-DBE/MBE/WBE Subs/Suppliers: You will be expected to carry a proportionate percentage of 2nd-tier participation with your quote. 2nd-tier participation will be evaluated with your price.

100% performance and payment bonds will be required for the full amount of the subcontract price. Please contact us for any assistance to this solicitation, including obtaining bonding, insurance, equipment, materials and/or supplies. Provide subcontractor and supplier scopes/quotes as early as possible to enable estimators to perform a thorough evaluation of all scopes/quotes received. Quotes will be broken down into comparable packages as reasonably necessary to facilitate participation. Quotes must be valid for the same duration as specified by the Owner for Contract Award. We are signatory to Operators, Laborers, Ironworkers, Cement Masons, Carpenters & Pile Drivers Unions. Non-signatory subs will be required to sign an agreement for trades covered under our union agreements. We intend to work cooperatively with subcontractors/suppliers for all bid items you are licensed and qualified to perform. Bid items can be split to facilitate participation from all certified firms. We will reimburse for bond premium up to 2%. Firms must possess & provide current contractor's license number & DIR Registration number on the quote. Firms must possess insurance and workers compensation coverage meeting project requirements. Waiver of Subrogation is required. Please contact us for any assistance required by your firm. Subcontractors will be required to execute our standard subcontract agreement and agree to the standard general terms & conditions. Please contact us if you would like copies for review prior to bid day.

Project documents may be viewed in our office by appointment only, or downloaded for FREE from our Box ftp site. # Mayor Garcetti hosts Clean Transportation Forum with Paris Mayor Hidalgo

Continued from page 1

done, delivering on the highest goals of the Paris Agreement and cleaning the air that our citizens breathe.”

In addition to the Purchasing Collaborative, the forum focused on the L.A. Cleantech Incubator’s (LACI) new 2028 Zero Emissions Roadmap — a blueprint to help accelerate the reduction of greenhouse gas emissions and air pollution by the time the world arrives in Los Angeles for the 2028 Olympic and Paralympic Games. The partnership is comprised of LACI, the Office of Mayor Garcetti, California Air Resources Board, County of Los Angeles, Los Angeles County Metropolitan Transportation Authority, Los Angeles Department of Water and Power, and Southern California Edison (SCE).

“The Zero Emissions 2028 Roadmap is the first milestone of the newly-formed Transportation Electrification Partnership, an unrivaled public-private partnership between Mayor Garcetti and our area’s top officials and industry leaders to accelerate the clean up of our air, grow our economy and advance innovation,” said Matt Petersen, President and CEO of LACI. “This regional partnership combined with the Climate Mayors EV Procurement Platform marks a major step in climate action for Southern California and the nation.”

About Climate Mayors: Climate Mayors, founded in 2014 by Los Angeles Mayor Eric Garcetti, former Houston Mayor Annise Parker, and former Philadelphia Mayor Michael Nutter, is a bipartisan, peer-to-peer network of 409 U.S.

Mayors representing 70 million Americans from 47 states committed to adopting, honoring, and upholding the goals of the Paris Climate Agreement. Climate Mayors are working together to demonstrate leadership on climate change through meaningful actions in their communities, and to express and build political will for effective federal and global policy. Last year, Mayor Garcetti led the release of an EV RFI with 30 cities to demonstrate demand for over 114,000 electric vehicles, trucks, and equipment.

For a full list of participating Climate Mayors and more information on the initiative, visit [DriveEVFleets.org](http://DriveEVFleets.org). To learn more about Climate Mayors, visit [www.climate-mayors.org](http://www.climate-mayors.org). You can also engage with Climate Mayors on Facebook, Twitter and Medium.

**What Climate Mayors are saying:**

“Santa Monica is proud to be amongst leaders taking action on climate change through the Climate Mayors EV Purchasing Collaborative. As the majority of greenhouse gas emissions come from transportation, this effort reduces our collective carbon footprint and will help Santa Monica achieve carbon neutrality by 2050 or sooner.” — **Tony Vazquez, Mayor of Santa Monica, California**

“This purchase of electric vehicles for our fleet is part of our commitment to reducing greenhouse gas emissions. Jersey City continues to be a leader in municipal efforts to combat climate change and I am honored to help move this important collaborative forward.” — **Steven Fulop, Mayor of Jersey City, New Jersey**

“Electrification is vital to taking action against climate change. As a Climate Mayor, I am proud to see Long Beach join the founding cities to lead the charge.” — **Robert Garcia, Mayor of Long Beach, California**

“Chula Vista has long been an environmental champion and we are proud to be one of the founding cities for the launch of the Electric Vehicle Purchasing Collaborative. As an active partner of Climate Mayors, we are putting the concept of ‘thinking globally and acting locally’ into action. Our goal to double the city’s low and zero-emission vehicle fleet sends a strong signal about our commitment to promoting cleaner air and reducing greenhouse emissions to support the goals of our Climate Action Plan. By working together, we will show how cities can shape solutions and demonstrate the power of collective action on climate change.” — **Mary Casillas Salas, Mayor of Chula Vista, California**

“The City of Yonkers is proud to be part of a coalition of cities across America committed to vehicle electrification and reducing greenhouse gas emissions. The Climate Mayors EV Purchasing Collaborative will help accelerate the conversion of municipal vehicle fleets from gas to electric and demonstrates how cities can work together in taking meaningful action on climate change.” — **Mike Spano, Mayor of Yonkers, New York**

“I am excited to be a founding member of the Climate Mayors EV Purchasing Collaborative, and even more excited to say that we are the first and only county, thus far, involved in this innovative program. I want to thank the City of

Los Angeles for bringing together local governments across the nation to lead in EV adoption and proud to announce that we will procure five vehicles for our county fleet in 2019. One of the most impactful things we, as a county, can do to reduce greenhouse gas emissions is to move our fleet to electric vehicles and cleaner burning heavy-duty vehicles. Reducing emissions is the number one thing we can do to help slow the impact of climate change.” — **Armond Budish, Cuyahoga County (Ohio) Executive**

“Portland is proud to join with other forward-thinking cities around the country to allow our fleets better access to affordable electric vehicles. Every switch to clean power vehicles will reduce carbon emissions, improve air quality and keep us on track to meet the goals of the Paris Climate Agreement.” — **Ted Wheeler, Mayor of Portland, Oregon**

“Aspen is proud to join the Climate Mayors EV Purchasing Collaborative by adding zero-emissions vehicles to our own fleet. Currently, 17 percent of the greenhouse-gas emissions in Aspen comes from transportation and projections show there will be more cars on the roads in the future. These factors emphasize the need to ensure that the cars on the road, now and into the future, are cleaner. We applaud Climate Mayors for organizing a platform to lower the cost of EVs and charging infrastructure for communities across the US.” — **Steve Skadron, Mayor of Aspen, Colorado**

## 10 Small Business Grants & Loans for Veterans

Continued from page 3

Be sure to register with their office. Once your business has been verified, it will be added to their directory of small businesses and could be called upon for a government contract.

### 6. Nav's Small Business Grant

Nav understands the challenges of starting, financing, and running a small business. To give small business owners a lift, Nav recently launched the \$10,000 "Legitify Your Small Business" grant. While you don't have to be a veteran to apply, we'd love to hear about your small business. Keep an eye out for the next application round to open, and check your business and personal credit score for free with Nav.

### 7. VA Small Business Grants

Meant for non-profit businesses, Department of Veterans Affairs Small Business Grants are aimed at helping veterans get their operations up and running. Like any other grant, this does not have to be repaid, but will require strict compliance on the part of your business. Be sure to review the guidelines before applying to be sure your business is in compliance.

### 8. VA VR&E Business Ownership Track

If you suffer from a service-connected disability and have the desire and plan to run your own business, you could qualify for assistance from the Vocational Rehab & Employment Ownership Track. Along with the requirements listed above, you must have an employment barrier or handicap, be enrolled in the VR&E, and your disability must make it difficult for you to obtain suitable employment.

Be sure to check the requirements and application to see if you could get help getting your business off the ground.

### 9. Service-Disabled, Veteran-Owned Small Business Program

Similar to the VA's OSDBU program, the Service-Disabled Veteran-Owned Small Business Program aims to provide certain businesses with contracting dollars. The federal government sets aside at least 3 percent of contracting dollars for set-aside contracts for small businesses owned by disabled veterans.

Just like the OSDBU, you should apply for verification through the program before being added to a directory to be considered for certain contracts.

### 10. LendingClub Veteran Loan

LendingClub is one of many private lenders offering special benefits for veterans. Their small business loan for veterans has a term of one-to-five years, with borrowing limits of \$5,000 to \$300,000. You must have a credit score of at least 600 and a business that has been in operation for at least two years with annual revenue of at least \$50,000.

## 10 Safety Tips for General Contractors

Continued from page 2

inventory of each new project's lay of the land. Potential hazards may be lurking that can result in devastating accidents. Being aware of hazardous conditions on the job is crucial to eliminating unnecessary safety risks.

### 7. Maintenance of Equipment and Tools

Maintaining the condition of equipment and tools used in construction work is also essential to increase efficiencies in safety. Malfunctioning equipment can quickly put workers in harm's way, leading to accidents and injuries that are completely avoidable. General contractors should spend time each visit inspecting the state of equipment and tools to ensure they are in good working order.

### 8. Decreasing Crowded Work Areas

Construction sites can get crowded quickly, especially when a big project is underway. Instruct workers, vendors, and suppliers to remove themselves from locations that do not require their attention. Reducing the number of people lessens the risk of accidents, and general contractors can accomplish this safety task by putting strict guidelines in place at the start of each project.

### 9. Worker Education

Even when subcontractors are evaluated for hire based on their previous industry experience and licensing qualifications, ongoing worker training is a must. To ensure safety

standards are up to date with best practices in the industry, general contractors should encourage their staff to partake in training courses either in-person or online. Safety training courses are available through OSHA as well as several other outlets. Being educated about safety standards helps reduce accidents and injuries among construction workers.

### 10. Communication

The most important safety tip for general contractors boils down to clear, concise communication. This, however, is often easier said than done. Start with establishing the chain of command on each job site, and use the communication mediums that make the most sense for the crew. Also, it is important to be available via those channels when workers need guidance or assistance on the job. It is also important to master the skill of listening, as workers may share important safety concerns or suggestions throughout a project.

Taking these small steps to ensure safety on a construction site as a general contractor can make a significant difference in reducing accidents and injuries over the course of a project.

## Handling Reading

Continued from page 2

- Highlight passages as you read. This makes review time much easier.
- Where appropriate, have your administrative assistant, associate or colleague highlight information prior to your initial review.
- Never save a stack of items with articles to be clipped later. Clip the article, note the source, and recycle the rest of the periodical.
- For long documents, use spot reading. Read the recommendations or conclusion section first. Look for the purpose of the document by reading the subject line. Note headings, captions, notations under charts, graphs and first sentences of each paragraph.
- Read while commuting, waiting for appointments, or on airplane trips.
- Set aside 30 minutes twice a week to read. Schedule it on your calendar if you need a reminder. Remember that getting the critical reading done is better than doing none at all.

Public Legal Notices

CITY & COUNTY OF SAN FRANCISCO  
DEPARTMENT OF PUBLIC WORKS

INVITATION FOR QUOTATIONS  
CITY & COUNTY OF SAN FRANCISCO  
SAN FRANCISCO PUBLIC WORKS  
MICRO-LBE SET-ASIDE PROGRAM

Contract No. 1000006284  
E.S.E.R. 2014 NFS SHOWER PACKAGE 2

Quotations will be received at 1155 Market Street, 4th Floor, San Francisco, California 94103 until **2:30:00 p.m. on October 9, 2018**. Digital files of Bid Documents, Plan Holders Lists, and Addenda may be downloaded at no cost from the Department of Public Works (DPW) Electronic Bid Documents Download site at [www.sfpublicworks.org/biddocs](http://www.sfpublicworks.org/biddocs). Please visit the Public Work's Contracts, Bids and Payments webpage at [www.sfpublicworks.org](http://www.sfpublicworks.org) for more information (click on Resources > Contractor Resources). Notices regarding Addenda and other bid changes will be distributed by email to Plan Holders.

The Work includes replacement of wall tile, floor tile, and terrazzo flooring; replacement of marble partitions with new framed walls; installation of new glass shower doors and hardware; replacement of shower control valve and shower heads; and replacement of drains, p-traps and associated plumbing. The time allowed for completion is 154 calendar days. The Architect's estimate is approximately \$367,000. For more information, contact the Project Manager, Sherry Katz at 415-557-4759.

No contractor or subcontractor may be listed in a bid or awarded a contract for a public works project unless registered with the DIR as required by Labor Code section 1725.5 [with limited exceptions from this requirement for bid purposes only under Labor Code section 1771.1(a)].

This Contract is subject to the requirements of Administrative Code Chapter 12X, which prohibits the City from entering into any Contract with a Contractor that has its United States headquarters in a state ("Covered State") with laws that perpetuate discrimination against LGBT populations or where any or all of the work on the contract will be performed in any of those states. A list of states on the Covered State List can be found at: <https://oag.ca.gov/ab1887>.

This Project shall incorporate the required partnering elements for **Partnering Level 1**. Refer to Section 01 31 33 for more details.

The Specifications include liquidated damages. Contract will be on a Lump Sum Bid Items basis. Progressive payments will be made.

A bid may be rejected if the City determines that any of the bid item prices are materially unbalanced to the potential detriment of the City.

Only San Francisco Contract Monitoring Division certified Micro-LBE contractors are eligible

to bid on this Set-Aside Contract in accordance with San Francisco Administrative Code Chapter 14B. Bid discounts, LBE Subcontracting Participation Requirement, and Good Faith Efforts are not applicable to this contract. Other CMD requirements shall apply. Certified Micro-LBE prime bidders must perform at least 25% of the contract work. Call Finbarr Jewell at 415-274-0511 for details.

A pre-bid conference will be held **Wednesday, September 19, 2018 at 1:30 p.m.** at 30 Van Ness Avenue, Suite 3900 University Room followed by site visits in the order of:

1) Fire Station 17, 1295 Shafter Avenue, San Francisco, CA 94124  
2) Fire Station 33, 8 Capitol Avenue, San Francisco, CA 94112  
3) Fire Station 19, 390 Buckingham Way, San Francisco, CA 94132

Bidders are reminded that access to each Fire Station requires an escort by SFFD/City Representative. Bidders are asked to meet on time in front of the Fire Station building.

A corporate surety bond or certified check for ten percent (10%) of the amount bid must accompany each bid. Administrative Code Section 6.22(a) requires all construction contracts in excess of \$25,000 to include performance and payment bonds for 100% of the contract award. For information on the City's Surety Bond Program, call Jennifer Elmore at (415) 217-6578.

Class "B" license required to bid.

Minimum requirements of San Francisco Administrative Code Chapter 6 Sections 6.21 and 6.22 requires bidders to include with their quotes information concerning their experience and financial qualifications, San Francisco Business Tax Registration Certificate, participation in an apprenticeship program and compliance with subcontractor listing laws.

Pursuant to Charter Section 3.105, all contract awards are subject to certification by the Controller as to the availability of funds.

Minimum wage rates for this project must comply with the current General Prevailing Wage as determined by the State Department of Industrial Relations. Minimum wage rates other than applicable to General Prevailing Wage must comply with San Francisco Administrative Code, Chapter 12P, Minimum Compensation Ordinance.

Bidders are hereby advised that the Contractor to whom the Contract is awarded must be certified by the Contract Monitoring Division as being in compliance with the Equal Benefits Provisions of Chapter 12B of the Administrative Code within two weeks after notification of award.

Right reserved to reject any or all bids and waive any minor irregularities.
